Learning new things about web dev.
Football

EDUCATION

Federal University of Technology Minna, Niger state Nigeria
2015 - 2020

EXPERIENCE

In my role as a Junior Web Developer I want to play a crucial role in the development and enhancement of web applications.

Frontend Development: Collaborating with the development team to implement responsive and visually appealing user interfaces using HTML, CSS, and JavaScript. Ensured seamless user experiences across various devices and browsers.

Coding and Implementation: Contributing to the coding and implementation of website features and functionalities, adhering to best practices and coding standards. Worked on several project as seen in my github.

Version Control: Utilizing Git for version control, maintaining a well-documented and organized codebase.

Responsive Design: Responsiveness of websites by implementing mobile-first design principles, contributing to an enhanced user experience on various devices.

Continuous Learning: Keeping myself abreast of the latest web development trends, tools, and technologies, actively seeking opportunities for professional growth.

Looking forward to team Collaboration with cross-functional teams, including designers and senior developers, to understand project requirements, contribute to the planning process, and deliver high-quality solutions on time.
